

Canada Will Become One of World's Greatest Air-Training Centres

Dominion Will Pay More Than Half of Cost of Big Scheme

Continued from Page One

er 22 weeks and for an air gunner and wireless operator, 20 weeks.

There will be an unstated number of elementary flying schools established, 16 service flying schools, 10 air observer schools, 10 bombing and gunnery schools, two air navigation schools, and four wireless training schools.

In addition to the provision for the student training there will be schools for instructors and administration staffs, ground crews and maintenance men—a total for all purposes of 97.

Use Trans-Canada Air Fields

Many of the 42 standard Trans-Canada Air Lines fields will be used in initial stages of the training scheme and work is going forward on surveys for new fields.

Construction will go forward as soon as possible on the schools and other necessary buildings for which plans have been prepared. Some "protective" orders have already been placed for supplies required from outside Canada and the prime minister said, the war supply board is prepared to place contracts at once for the needed equipment.

Without mentioning the Conservative leader by name, the prime minister replied in his speech to criticism from Hon. R. J. Manion and others that the Dominion had delayed negotiations.

Mr. Mackenzie King said the negotiations had proceeded in complete harmony with the missions from abroad and that there had been no unnecessary delay.

The air mission from the United Kingdom, under chairmanship of Lord Rutherford, a well-known English industrialist, came to Canada with a large staff of experts October 15. On November 15 it was joined by a mission from Australia headed by Hon. J. V. Fairbairn, then minister of Civil Aviation and now minister for air.

On November 3 the New Zealand mission arrived headed by Group Captain H. W. L. Saunders, chief of the New Zealand air staff.

Cabinet Committee Negotiates

Negotiations on behalf of Canada were carried on by a committee of the cabinet composed of Mr. Mackenzie King, Hon. Norman Rogers, defence minister, Hon. J. L. Rolston, finance minister, Hon. Ian MacKenzie, pensions minister (former defence minister), and Hon. C. D. Howe, transport minister.

November 27 announcement was made that basis for agreement had been reached for submission to the governments concerned. The time since, Mr. Mackenzie King said, "has been devoted to an elaboration and precise definition of details of the plan, and to drafting of the agreement in its final form."

Following is a partial text of Prime Minister Mackenzie King's speech on the agreement.

I am pleased to be able to announce that agreement has now been reached by the governments of the United Kingdom, Canada, Australia and New Zealand on a co-operative air training plan. The agreement was signed last night very shortly after midnight in my office on Parliament Hill. It is based on a proposal made to the governments of Canada, Australia and New Zealand, on September 26, by the government of the United Kingdom.

In addition to a rapid and extensive increase in the air training program of each of the three dominions, the plan visualizes joint training in Canada, in the more advanced stages, of pupils from Canada, Australia, New Zealand and the United Kingdom.

Undertaking Of Great Magnitude

The undertaking is one of great magnitude.

It will establish Canada as one of the greatest air training centres in the world. Its development will result in a rapid increase in the number of air training schools in this country, and will achieve a steady increasing output of highly trained pilots, observers and air gunners.

The plan will enable the four countries to meet the greatly increasing requirements of trained personnel for their prospective air forces, and for such service as the combined forces may be called upon to perform in the theatres of war. The aim, in short, is to achieve by co-operative effort, air forces whose coordinated strength will be overwhelming.

The Canadian government accepted in principle on Sept. 28, that is, two days after it was received, the proposal was also accepted by the Australian and New Zealand governments.

A mission, known as the United Kingdom air training mission, was sent to Canada from the United Kingdom, and was headed by distinguished industrialist, Lord Rutherford, Lord Rutherford and his colleagues arrived in Canada Oct. 18. They remained for a few days, and by Captain H. H. Balfour, the parliamentary under-secretary of state for air. On Nov. 15, the air training mission arrived from Australia. The Australian mission was preceded over the ocean by Captain D. D. Dingley, who is staying in Canada, as a result of the reorganization of the Royal Canadian Air Force.

To reach the main objective, the rapid training of the personnel, the facilities in these countries, in excess of local needs, will be mechanized and other skilled artisans, who constitute ground crews and maintenance staffs.

For the program of joint training full use will immediately be made of the existing facilities of the Royal Canadian Air Force, as well as of facilities generously made available by The Canadian Aircraft Industries. This joint training program will fully operate, a great deal of construction work will be necessary.

Throughout the entire coast where scores of existing air fields will have to be enlarged, and some 60 new ones will be established in different parts of Canada. Large supplies of equipment and wireless sets will be required to furnish the schools, and also the equipment and repair depots.

The joint training facility in the United Kingdom will continue to be used by the Royal Air Force.

BIG R.C.A.F. EXPANSION

Under the agreement as it relates to joint training in Canada, the program of joint training will be enlarged so as to include the Royal Canadian Air Force, as well as the Canadian air force in all four countries.

The joint air training program provides for the training of many

thousands of pilots in Canada each year, about three-fifths as many air observers, and a slightly larger number of air gunners than pilots. The pilots will include those who actually operate the planes. The observers handle the bombardment, and, as well, the bombing sights, and, as well, the navigating. The gunners use the machine guns, and also act as wireless operators.

The facilities in Canada will be used, in varying degrees, by all four countries, and practically all air recruits in the United Kingdom will be trained at home, and in New Zealand, all air recruits will receive their initial and elementary flying training at home.

ONE-FIFTH FROM OVERSEAS

Most of the Australian pupils and some of the New Zealand pupils will also receive advanced training in their own countries. Under the agreement, one-fifth of the pupils to receive advanced training in Canada will come from the other three countries. Some pupils will be recruited from the United Kingdom, Newfoundland and elsewhere.

The first stage of training in this country will be initial training, which is a ground course to prepare recruits for flying, and for gunnery, and the second stage will be given in three large schools.

At the end of four weeks' initial training, the students will be of those to be pilots, observers or gunners, and they will then go to the appropriate schools.

Pilots will be of the elementary flying schools, where they will learn to get the feel of a plane, and to fly it. After a few more eight weeks, they will graduate to the service flying schools.

ADVANCED TRAINING

It is at this stage that the Australian and New Zealand pupils will receive their initial and elementary training in their own countries, will come to Canada to continue their training at the service flying schools, of which there will be 16 in Canada, pilots will spend about 10 weeks in each, and some eight weeks, they will graduate to the service flying schools.

THEIR OWN FLEET

It is at this stage that the Australian and New Zealand pupils will receive their initial and elementary training in their own countries, will come to Canada to continue their training at the service flying schools, of which there will be 16 in Canada, pilots will spend about 10 weeks in each, and some eight weeks, they will graduate to the service flying schools.

Many Happy Returns

Prime Minister King reached the 65th milestone on the journey of life yesterday. In keeping with the fine sentiment and custom which prevail in democratic countries he was the recipient of congratulatory messages from leaders of all political parties; as well as from representatives of Empire and foreign countries, and hosts of personal and unofficial friends at home and abroad. In these expressions of good will Canadians of all classes and creeds will join heartily.

With something more of feeling, it may be supposed, because it is Mr. King's fortune to head the Government of Canada in war-time. To any man holding the place at such a time must go something more than casual good wishes. No man in Canada is carrying as heavy a load today as its Prime Minister. No man is working longer hours, under so terrific a strain, or with heavier demands upon his nervous energy.

It is a matter of national importance that the Prime Minister is enjoying better health than some years ago, and that he enters another year with every prospect of being able to carry on in full vigor of mind and body. Such will be the hope of his countrymen everywhere.

More Money For Welfare

Aside from contributions to Red Cross and other war funds, eleven Canadian cities are reported to have raised this fall a total sum of \$4,000,000 for charitable and welfare work of the ordinary peace-time character. The figures include collections in only those cities where community chests have been established or similar methods adopted of making a single appeal and apportioning the proceeds among the various welfare organizations.

The sum is \$250,000 more than these cities collected for the purpose last year. Since the need for help of this kind is not greater the country over than it was last year, and is definitely less in many centres, the increased giving may be credited in part to the influence of war.

When the people of a nation have to share necessities and sacrifices they naturally develop a keener sense of kinship and a lively sympathy with those of their number who are in hard circumstances. This is historically true, in Canada and other countries.

There is a suggestion in the figures, too, that the community chest plan is working satisfactorily where it has been adopted, and with cumulative success as time passes.

Good Strategy

Von Ribbentrop was sent to Moscow to make a deal whereby Russian food-stuffs and materials would be obtained to support the people of Germany and supply the Nazi forces with munitions for their fight against the Allies.

The outlook for getting adequate supplies from that source was none too good at best. For Soviet Russia has been hard pressed to feed its own people, overtake the long neglect of industrial development, and maintain the colossus Red Army. A speed-up of Russian production and reconditioning of Russian railways were announced from Berlin to steps immediately necessary if the required materials and foods were to be obtained; which steps were to be taken forthwith.

But Russia has found a new use for its supplies of foods and war materials and its railways. It is supporting an army variously estimated at from half million to a million and a half, engaged in a desperate war of conquest in Finland. Supplies which could otherwise move west to Germany are moving north to the Finnish border, and the railways which were poorly equipped to handle the proposed traffic to Germany are now busy handling supplies to the northern front.

That this is hampering the Nazi war effort, and intensifying the economic difficulties in Germany, there can be little doubt. The longer the Finns hold out and the more they force the fighting, the less supplies Germany will get from Russia. Help given to the Finns is thus an effective way to extend the blockade of Germany, weaken its military equipment and sap the economic strength that supports its fighting forces.

Faring Pretty Well

Residents of Canada of alien enemy nationality who have been placed in internment camps are apparently having not at all a bad time of it. Information given out as to conditions at Seebe, the camp for western Canada, indicate that the internees—aside from being confined and separated from friends—have little to complain about.

This camp is situated some 60 miles west of Calgary, at the scene of an old lumber camp. The inmates are employed in forestry work, a pleasant enough occupation in the fine fall weather that has thus far prevailed, and which in the nature of things cannot be carried on strenuously in severe weather. They are paid twenty cents per day, which they use to buy tobacco and other luxuries. They are also free to spend for these purposes any money they had in their possession when taken into custody, and funds supplied to them by friends outside.

They live in huts identical with those of their guards, and eat the same food, with no penalizing restrictions as to the amount. The huts accommodate 16 men each, and one of their number is appointed hut orderly. They have shower baths and tubs, spring beds, and four blankets per man. They look after themselves as to cooking, washing, etc., and have reasonable privacy. Visitors are allowed once per month and letter-writing once per week.

It will be highly gratifying to the public to know that the camps are being run on these lines.

It is to be hoped Allied interns and war prisoners in Germany are being as well treated, or as nearly so as food and other supplies make possible. And of this there is at least the negative assurance that United States consular representatives have registered no protest on the matter. These, it will be recalled, have taken over the duty of investigating German internment camps and investigating conditions, on behalf of the Allied Governments.

Berlin reports that a Russian trade mission is going home after looking over German industrial establishments and picking kinds of manufactured goods which may be accepted in payment for Russian products. It also discloses that the barter deal is limited in amount to \$200,000,000—considerably less than the South American trade Germany has lost by the Allied blockade. At that, Stalin doesn't seem to be hurrying himself about sending along the supplies, since he is still dithering over the goods to be accepted in payment.

Fifty Years Ago

From the Files of the Edmonton Bulletin

Pupils of the junior department of the high school presented their teacher, Miss Osborne, with a gold watch and chain, given by an address signed by all the pupils and presented by Mr. McDougall and Harriet Oliver.

J. Huggard arrived today with freight.

W. Fielder has purchased two live moose which were brought in from Lac Ste. Anne and are now at the Hudson's Bay fort.

Forty Years Ago

R. C. Edwards of the Leduc Sun is in town, with Mr. and Mrs. W. Dykeman arrived from Lesser Slave Lake.

Charles Richardson returned Monday from attending normal school at Regina.

E. Raymer has left for Eastern Canada.

Thirty Years Ago

The provincial government announces that the taxation of R.C.R. land will be settled by a committee to be appointed by the provincial council next week.

This has been the biggest building year in the history of Edmonton, the total now being \$2,125,381. This does not include some government buildings which is to begin early next year.

Twenty Years Ago

Sir William Oster, the noted physician, is ill. He has an international reputation as a doctor and as a teacher. In addition to his great achievements in the field of medical science, he has composed many books and has written many books which have brought delight to thousands of readers. His condition is grave.

Ten Years Ago

Ottawa: The Dominion Government has reached agreements with the Governments of Alberta and Manitoba for the transfer of the natural resources of those provinces to provincial administration.

London: The receding flood waters of the Thames have left a train of desolation in the valleys of South Wales. Floods struck the Avon Valley four times in three weeks, turning agricultural streams into torrents which swept into tiny homes already suffering poverty and privation.

Highest temperature at Edmonton on Sunday was 40° cent.-12°.

Ottawa: Agreements for the transfer of natural resources to the governments of Alberta and Manitoba will be signed today.

Current Comment

Vast and Far-Flung

A memorandum from the Dominion Bureau of Statistics causes one to pause and reflect upon the vastness of the British Empire. It estimates that there are one and a quarter of the surface of the earth and considerably more than a quarter of the population of all nations.

The area of the world is 51,166,000 square miles. Of this the British Empire covers 13,318,000 square miles. The total population of all the nations in the world is 2,023,000,000. The total population of the empire living in the countries within the British Empire is approximately 493,000,000. Her largest possessions are in the Far East and in the south. There is Africa with 5,833,273 square miles and 56,448,000 people; British America with 1,088,000 square miles and 364,566,000 people. Then there are the Americas, North and South; Central; the West Indies and Oceania. Together these countries possess 7,375,288 square miles and 22,087,000 people. In contrast to these far-flung possessions there is India with 1,240,000 square miles and 393,000,000 people, on which live 43,000,000 people. But although the European part is smaller in physical dimension, it is not so in its vitality. Here is the head of the Empire and what it thinks and decides influences all the other parts.—Toronto Star.

Not Laughing at Us

Premier Mitchell M. Hepburn of Ontario says: "Americans are laughing at Canadians for the way they are running this war." That will be news and not pleasant news for the big majority of the American people.

They are not laughing, regret and admiration for the Canadian people. They don't the slightest disposition to criticize their northern neighbors—and much less to laugh at them—for the way they are meeting a very trying situation.

Americans have read a little history. Some of them serve with Canadians on the fields of France. They know that the Canadian and both democratic in Canada are first-class fighting men and they are willing to wager that in this war, as in every other war, the Canadians are giving a good account of themselves and will continue to do so.—Labor, Washington, D.C.

Timber By Rail

British Columbia lumber in the worst way; this province is anxious to send out and please its Empire customers; but there are not quite enough ships to go round.

The logging camps are turning out required timber in tremendous quantities; the mills are working full blast. The logs are cut, rounded and lengthened—but the lumber is piling up in the yards here. Storage facilities will soon be exhausted.

There is no question of getting the orders and financing shipments, it is entirely a question of transport. British "bottoms," which means flat-bottomed ships, have had to wait months. It has happened that ships assigned weeks ago by the British authorities to come here for lumber have had to be diverted for other cargoes.

A recent complication has arisen. Mr. Joseph E. Davies, United States ambassador in London, has just returned by Atlantic Clipper and today is conferring with President Roosevelt. He is "all steamed up" about the need for lumber in Britain and the ability of United States ports on the Pacific coast to supply it. British Columbia can deliver the lumber to Bristol we may lose the business to smart American salesmen.

A very curious thing has happened. The reader attempt to diagnose their own diseases as a doctor to remark, "Pain is the greatest liar in the world."

When pain drives the patient to undertake a treatment, the doctor must be considered useful. It has done its duty as a warning signal that something is wrong which needs correcting.

McKenney On Bridge

By WM. E. McKENNEY, America's Card Authority

This is the sixth of a series of 12 articles by Mrs. R. C. Young of Philadelphia, the world's No. 1 woman bridge player.

By MRS. R. C. YOUNG

As told to Wm. E. McKENNEY, America's Card Authority

I do not encourage original pre-emptive bids, but I do like to see a pre-emptive bid such as shown in today's hand, offering an advantage.

Some of us "barriers" bid against the opponents. I do not like to make such a bid as dealer, because it may offend the other players, particularly the partner rather than the opponents. But when East opens fourth hand, I jump to aces in spades in order to embarrass West.

The bid could not be mistaken for anything else, because it is pre-emptive and my partner is bound to open opening bid. The overbid seemed fairly safe, because if doubled and passed, it would be a good bid for each separate article desired for each separate article desired.

As often the partner which will permanently banish pain is that which finds the cause and takes it away.

Sensitivity to pain varies considerably among different individuals, and a strong, phlegmatic person may feel pain which would be too much for a highly-strung, nervous person.

As a general rule, the person who feels pain most easily is the person who is most sensitive to the nervous system, the more severe the pain.

This is not always true, as some persons do not in themselves perceive pain which is much more severe than that due to some other part of the organism, disease, which deadens the nerves of sensation.

A very curious thing has happened. The reader attempt to diagnose their own diseases as from pains they may have, however, I do not advise you to do so for any of these articles. "A Lesson in Pain." "Pain from a Sprained Ankle" and "Sprained Ankle." Read "Pain from a Sprained Ankle" and "Sprained Ankle" and you'll request to me and please enclose a large self-addressed envelope with your name on it and please enclose a large self-addressed envelope for each separate article desired.

On This Date

By FRED WILLIAMS

One hundred and fifteen years ago today the British government decided to appoint the secret Royal Canadian Mounted Police to be the first bachelors of Upper Canada. For years previous he had been auxiliary to the Bishop of Quebec. This creation of the Roman Catholic took place 15 years before the Church of England was permitted to have a church of its own in Canada, and was the second of many of the institutions of Westminster to give Roman Catholics in Canada that freedom that was denied them in Britain.

Finally in the War the British learned the secret German code. The code book had been rescued by the Russians when sank the cruiser Magdeburg in the Gulf of Finland. A cryptograph deciphering branch was an important unit to the British Navy. Wars are won as well as by weapons.

Germany led in the development of invisible ink, which required some obscure reagents. One spy, who appeared to be a harmless philatelist, sent cancelled stamps. A Nicaraguan stamp of a certain denomination was used to mark a letter which contained the secret code.

Canada has had to pay heavily for shortages of rubber and raw materials. The cost of living has gone up 100 per cent. The cost of living has gone up 100 per cent.

Who group thinking, you is most seriously affecting the world's tomorrow? And which is the more closely following the Gospel Plan?

We seek not great things for ourselves. O Master, we ask only that we may guide the feet of youth aright into the ways of pleasantness and paths of peace. Amen.

Read Psalm 40:1-11.

Teacher: "How do you spend Constantine, Jimmie?"

Jimmie: "With great difficulty, Miss."

Jones: "How do you spend your income?"

Smith: "About 30 per cent for shelter, 30 per cent for clothing, 10 per cent for food and 20 per cent for entertainment."

Jones: "But that adds up to 120 per cent."

Smith: "That's right."

Two young brothers were arguing. Said the elder: "I claim what he had been saying." "I don't know, don't go to school stupid."

"Yes," replied the other, "and you come home stupid."

First Italian Flirt: "What do you think of II Duke's son-in-law, Galeazzo Ciano?"

Second Flirt: "Oh, he's a good fellow to bomb around with."

The Spade hand with its long no trump, which we could not afford it, is just the type that in

the Spade suit, is the best that is

PROVINCIAL BRIEFS

VEGREVILLE

VEGREVILLE FAIR ENDS FINE YEAR

Moving last week the board of directors of the Vegreville Exhibition Association appointed Mayor J. B. Holden and Neil Rose, president of the association, as delegates to the Western Canada Fairs Association convention to be held in Winnipeg in January.

Read the statement yesterday Pitcairn the financial secretary of the association showed a cash盈 of \$10,000 over expenses.

An improvement of the exhibition buildings, \$1,000 on grandstand attractions and \$3,839 paid out in prizes will be the chief items of the new year.

More than \$500 were taken in 1938.

LLOYDMINSTER

Mrs. W. Geddes was reelected president of the Methodist Women at the little town southwest of Lloydminster at their annual meeting. Other officers elected were Vice-president, Mrs. D. Dobson; secretary, Mrs. R. Dobson; see-vice-president, Mrs. H. Parsons; treasurer, Mrs. F. V. Week. In addition the following regents were chosen: Mrs. M. E. Yaxley, Mrs. H. Parsons, church record; Mrs. Bissell, D. Ser. and Mrs. Pettie, flower committee; Mrs. H. Parsons, library branch of the Red Cross.

BYEMORE

Byemoor Woman Has Brother On Famous Exeter

Residents of the Byemoor district had the war brought right home to them when it was learned that a brother of Mrs. George Fowler, well-known resident of the district, had a brother serving on the Exeter. Exeter, when the German pocket battleship Graf Spee last week. Mr. Fowler's son, John, is serving on the Exeter. It is not known, as yet, whether he escaped injury during the battle or not. The Exeter suffered the most severe damage in the naval battle.

RIMBEY

Mrs. S. F. Carr was elected president of the United Church Ladies Aid at the December meeting held at the home of Mr. and Mrs. James Grant. Other officers elected are Mrs. Grant, vice-president; Mrs. G. L. Ferguson, recording secretary; Mrs. H. B. Hall, treasurer. The new president was appointed to represent the Aid to the Church branch of the United Church.

Mr. Grantham, treasurer of the Rimby branch of the Red Cross, reported that \$16,735 has been collected to date. Mrs. W. Jaffray, secretary of the Ladies' Aid of the Rimby branch, reported that the club's first 40 seasons have been completed.

One of the main contributions to the club this year is a 1,200 foot ski tow, now under construction on the hill above the top of the village.

Lloyd Tyrell, former member of Edmonton's ski team, has been appointed to the position of manager of the club this year, with Roy Fisher as first vice-president. Mrs. W. Hanna, secretary, vice-president; Dorothy Hoskell, treasurer; and Chester Hoskell, recording secretary.

W. A. Biss has been elected president of the Sylvan Lake chamber of commerce, succeeding coming year, Mr. M. N. Vining, president. S. W. Byers, secretary, and P. Dufeld, treasurer. The first regular meeting of the chamber will be held Jan. 18.

More than \$25,000 has been collected by the Sylvan Lake branch of the Canadian Red Cross society and a considerably larger sum is expected soon. In charge of the campaign is Mrs. H. St. Hilaire.

Mrs. C. L. Palmer, Mrs. F. L. Appleton, C. L. Dunford and W. M. Neely, Mrs. C. L. Wade, Mrs. G. H. Beedle presided as chairman, while Mayor George Miles of Sylvan Lake was the guest speaker.

LEDUC

Jack Wade, famous Canadian cowboy, who captained the Canadian rodeo team to Australia last summer, and who won the bronc riding championship at Pendleton this summer, was guest of honor at a dinner given by the Legion last week by the Halkirk branch of the Royal Canadian Legion. Beedle presided as chairman, while Mayor George Miles of Halkirk was the guest speaker.

VERMILION

Last Rites Held For Pioneer At Grande Prairie

The Vermilion Community Club was crowded at the service which was held for the late Mrs. Catherine Cameron, beloved pioneer of the Lake Saskatchewan district who died at the age of 80.

Pall bearers were all members

who had served with the district

in its early days.

Frances K. Carman, survived by her two daughters and three sons; Mrs. J. Larson, Arlene, Pegeen, Gordon, Huileen; Malcolm and Peter at home; also 13 grandchildren, six great-grandchildren; three sisters and two brothers.

Mrs. Cameron is survived by two

daughters and three sons: Mrs. J.

Edgar, Mrs. A. V. Cameron, Mrs. J.

Leduc, addressees of the Society of

A. M. West, chairman of the Vermilion branch of the Red Cross society, reports that the drive for

the year 1938-39 has been

completed.

Plans for organizing the Fort

Saskatchewan Boy Scouts will be

left in the hands of O. Lamoureux

and L. Collins.

A "flimflam" is to delay legislation.

Donald Paar Mark Diamond Wedding Day

Bridegroom To Bring Bride To Edmonton

RACIOUS telegram of congratulation and best wishes were sent by the Duke and Duchess of Buckingham, Prince and Princess of Wales, Their Majesties King George VI and Queen Elizabeth, and another from John Campbell Bowes, Lieutenant Governor of Alberta, made the diamond wedding day a celebrated occasion marked by Mr. and Mrs. Mark Paar at their home in Donalda, Alberta, on Saturday evening, a never-to-be-forgotten occasion.

Recipients of the telegrams all made a most pleasant day for the elderly couple, who marked the occasion with a dinner party and relatives and district friends.

RECEIVE GOOD WISHES

Mr. and Mrs. Pickering received not only royal congratulations from the Queen and the good wishes and felicitations of their many friends in church and social circles, but also from the trio, who called during the day. Mr. Pickering, aged 81 years, and Mrs. Pickering, his junior by two years, have had a happy and quiet life and were held in high regard by all.

On the evening before, Mrs. E. N. Whittemore presented a lovely silver flower basket to Mrs. Pickering on behalf of members of the Women's Club. A bouquet of Bouquets of flowers from the Ladies' Aid of both the United Church and the Lutheran Church were also presented to Mrs. Pickering.

Tea was served during the afternoon and a special card was given with Mrs. Whittemore presenting over the tea-service. The table was tastefully decorated with a red and white striped wedding cake. Assisting with the serving of refreshments were Mrs. Gordon Ostrom, Mrs. M. J. McPherson, Mrs. Sept. Tucker, Miss Lavonne Fisher, all nieces of Mr. and Mrs. Pickering.

FAMILY BANQUET

In the evening a banquet arranged brought the children, grandchildren, and great-grandchildren of Mr. and Mrs. Pickering together to mark the event.

RECEPTION

Forty-five guests extended their cordial welcome to the couple at a reception arranged at the residence of Mr. and Mrs. G. E. Everett. The tea-table, laid with a pink and white cloth, was graced with a three-tiered wedding cake. Assisting with the serving of refreshments were Mrs. Gordon Ostrom, Mrs. Sept. Tucker, Miss Lavonne Fisher, all nieces of Mr. and Mrs. Pickering.

Marshall-Tennant Nuptials Are Solemnized Quietly In Edmonton Saturday

MENSE of St. Andrew's Presbyterian church was the scene of a quiet but pretty wedding at the late afternoon service on Saturday, when Miss Jean Elizabeth Marshall, daughter of Mr. and Mrs. J. T. Marshall, became the bride of Gunnar James Marshall of Mr. and Mrs. J. D. Marshall. The ceremony was performed by Rev. D. Rossen.

Given in marriage by her father, the bride wore an afternoon gown of pink and white with gold embroidery and a lace collar. Her corsage was a corsage of bronze mums.

Her maid of honor was a shoulder corsage of bronze mums.

The wedding was held in Eastwood Hall, where Mr. and Mrs. Marshall are making their home in the New Year.

Margaret Findlay Is Married At Saturday Ceremony In Robertson United Church

CLAIMING interest of many Edmonton friends, an attractive wedding took place at the church portion of Robertson United church on Saturday afternoon, December 15, when Miss Edna Margaret Findlay, only daughter of Mr. and Mrs. Frank Clayton, and the bride of Mr. Frank Clayton, Miss Edna C. May, Rev. J. Gordon Brown officiated at the ceremony.

Christmas Tree Is Delightful Entertainment

KABINETS of lovely baby mums in late autumn shades and fresh greenery were arranged in the home of Mr. and Mrs. W. H. Leonard in Lloydminster. Saturday evening, a dinner after-party for a wedding of interest to many Edmonton friends, when their daughter, Betty, and Mr. George E. Decker of Edmonton, son of Mr. and Mrs. H. J. Decker of Balcarres, were entertained at the annual Christmas party of the Knights of Columbus Saturday evening.

Under the sponsorship of Mr. J. F. McDonald, vice-president and manager of the company, the affair was attended by about 200 guests. Toys were given to the children, who for some time, is a member of the Knights of Columbus of the city, and a member of the Knights of Columbus.

The bride was president of the plywood division of the Canadian Women's Club, 1937-39.

Following a wedding trip in Saskatchewan, the bride and groom will take up residence in Edmonton, at 20 Derwei Court.

Rev. G. P. McPherson officiated at the ceremony at the hour of two.

Recipients of the telegrams all

marked a most pleasant day for the elderly couple, who marked the occasion with a dinner party and relatives and district friends.

Homemade Candy Makes Smarter Tree Trimming

What To Do

By MRS. GAYNOR MADDOX
Part of the fun of Christmas is making home-made candies which will thrill the family and your friends. Hang them on the Christmas tree, or wrap them in tissue paper or pass on beautiful trays when the family gathers in the living room after a festive dinner.

CHOCOLATE COCONUT DIVINITY

Two cups sugar, 2-3 cup water, 1/2 cup light corn syrup, 2 egg whites, 1/2 cup melted butter, 1/2 cup browned chocolate, melted and cooled, 1 teaspoon coconut, dash of salt.

Bring 1/2 cup sugar and 1-3 cup water to boil. Add 1/2 cup light corn syrup. Add a small amount of syrup forms a slight ball in cold water (232 degrees F.). Remove from heat and stir slowly over eggs white, beating constantly until mixture looks like glass (145 degrees F.). Add browned chocolate (232 degrees F.) slowly, beating before. When nearly cool, fold in coconut and add dash of salt and salt, beat until candy will hold its shape. Turn into a greased pan 8x8 inches. Cool until set. Cut into 1 1/2x1 1/4 inches. Makes 31 dozen candies.

When entertaining at bridges and serving the following refreshments—a fruit salad, butter and rolls, coffee and cake—just how should they be placed? Thank you.

C. M.

Answer: When serving the above refreshments, place your forks on the right with the fork for cake next to the knife for cake. Place the fork on the outside. An individual butter knife should be laid across the top of the butter dish for roll and butter, and the teaspoon placed in the saucer with the coffee cup. But if you do not have individual butter knives, the regular knife and teaspoon are placed to the right of the salad plate, the teaspoon on the left, the fork and the two forks to the left—the salad fork on the outside and the plate fork for the cake next to the plate.

Bulletin Patterns

A SUIT IN TWO MODES Double or Single Breasted

CITY STORE SAFE LOOTED \$600 IN CASH

**Skilled Yeggs Crack
Strong-box—Homeowner
Suffers Big Loss**

Skilled burglarists who had broken open the safe in Gert's Gift Shop at 1025 Jasper avenue sometime over the weekend and looted it of at least \$600, police reported here Monday.

The robbery was discovered shortly after midnight Sunday by Constable R. Arcoria, of the police, who found the rear door of the premises unlocked. Entering, he found the safe open and broken.

He immediately called police headquarters and Det. Insp. John Leslie, Det. Sgt. Bert Peterman and Det. Murray Munro, who were on duty.

They found that the safecrackers had laid their charge of nitroglycerine across the floor and then blasted open the safe door, deliberately choice pieces sitting on the top of the safe.

Police said the Yeggs was one of the neatest they had ever seen and stated it indicated that the city had been visited by professional safecrackers who knew their business thoroughly. They might still be here, police said. Investigations are being continued.

Householder Loses Goods Valued \$650

Thieves forced their way into the home of Frank Jackieke, at 11844 98 Street Saturday night and sacked it from top to bottom and escaped with musical instruments, jewelry and other valuable items, all more than \$600, police said Monday.

The thieves forced their way into the garage adjoining the house and into the kitchen, through the garage into the kitchen. They ran-sacked the cupboard and drawers in the house, leaving the contents scattered around the room. The musical instrument was a gold-plated trumpet.

Through The Mill

The guy didn't bother to find out who owned the place, see. But he heard that song and he knew who it was that made them, and he figured that anything made that way was good, and after all the good things are from the mill, so he just chopped down a bunch of trees. And then the row started.

The trees were on city property "ew, he wasn't supposed to cut 'em," but that nobody could much about that, and he knew what that made somebody sore. The guy got his axe and went to the law-hay covering the cutting of trees on city property. But the call came in, and the gardener said, "One more, nothing more, and with all those branches lying around."

The city adjourned the case until Friday, while the gardener was interviewed. It was reported by police Monday morning that a sedan was stolen from Mills Motors used to get, and another sedan was brought in by W. J. Jameson, 11018 83 Avenue, garage at the rear of his home. Both autos were stolen Sunday night.

Seeking re-establishment of Woodford municipal council, a delegation from the town interviewed Mayor Lucien Monet, local municipal affairs, and A. V. Bourcier, M.L.A., for Lee Ste. Anne, at the former office of the mayor and banqueting hall, Calgary. He will return to his office here Thursday.

WELL-KNOWN IN EDMONTON, where he had visited many times in the past year, Mr. William M. Graham, chairman of the Canadian Legion, died Friday in Regina, according to his son, Mr. George Graham, 18 Belmont, who was with him. Which reminds us of that old story: "If you don't eat it now you'll get it later."

**MAYOR FRY IS
HANDED LINE;
PRETTY FINNY**

Portland greetings from V. T. Richards, our city alderman now resident in Caribbath, Calif., were received Monday by Mayor John F. Fry.

On the back of the card, which bears a picture of big fish caught in the Columbia River, Mr. Richards quips, "You must be a big fish in the pond." Now, don't be the hook like the one on the reverse side. If you're, you're the bait!"

Mayor F. J. Johnson, in a message, recalled that Mr. Richards was an alderman in 1912, 1922 and 1924, and had a general store on Whyle Avenue.

MILITARY ORDERS

Portland greetings from V. T. Richards, our city alderman now resident in Caribbath, Calif., were received Monday by Mayor John F. Fry.

An soldier will be held in Court-martial on Dec. 18 at 8 p.m. for desertion and for failing to report to the Canadian Legion. Active officers and executives of the Legion are invited to attend.

The date for examination Regimental Selection Board is set for Jan. 8th. Further instructions re these examinations will be issued on Friday evening.—R. H. Bradford, Capt. Office, 1st Battalion, 15th Infantry.

Major E. J. Johnson, in a message, recalled that Mr. Richards was an alderman in 1912, 1922 and 1924, and had a general store on Whyle Avenue.

SECOND ALBERTA DRAGOONS

An soldier will be held in Court-martial on Dec. 18 at 8 p.m. for desertion and for failing to report to the Canadian Legion. Active officers and executives of the Legion are invited to attend.

The date for examination Regimental Selection Board is set for Jan. 8th. Further instructions re these examinations will be issued on Friday evening.—R. H. Bradford, Capt. Office, 1st Battalion, 15th Infantry.

Major E. J. Johnson, in a message, recalled that Mr. Richards was an alderman in 1912, 1922 and 1924, and had a general store on Whyle Avenue.

Demand For Higher Wages Is Aired At Civic Conference

Complaints as to seniority ratings and demands for higher wages were aired before city commissioners by spokesmen for Civic Employees' Union No. 30, comprising 250 workers in the city engineer's and waterworks departments, in a conference at city hall Monday morning. The sessions were closed.

At the conference was P. E. Harrison of Vancouver, Dominion wage officer for the western provinces. Mayor John W. F. Fry, Alderman R. J. Smith and John Hodson, Edward Hunter, union president; McAlister, chief engineer; and John Miller, secretary of the Edmonton Trades and Labor Council; A. W. Bowring, city engineer and W. H. Mount, engineering superintendent.

The robbery was discovered shortly after midnight Sunday by Constable R. Arcoria, of the police, who found the rear door of the premises unlocked. Entering, he found the safe open and broken.

He immediately called police headquarters and Det. Insp. John Leslie, Det. Sgt. Bert Peterman and Det. Murray Munro, who were on duty.

They found that the safecrackers had laid their charge of nitroglycerine across the floor and then blasted open the safe door, deliberately choice pieces sitting on the top of the safe.

Police said the Yeggs was one of the neatest they had ever seen and stated it indicated that the city had been visited by professional safecrackers who knew their business thoroughly. They might still be here, police said. Investigations are being continued.

A-R-O-U-N-D THE TOWN

R. James Speers, of Winnipeg, president of the Western Canada Through-the-Rail Association in the city Monday, a guest at the Macdonald Hotel.

The regular meeting of the Edmonton Trades and Labor Council will be held at the Edmonton Hall Monday evening. The Board of Review under the Fair Deal Credit Arrangements will be in session at the board at the court house Saturday.

Officers of the board are scheduled to sit at the board at the court house Saturday.

PROTECTION URGED

The union also asks that when men are called out for work at the construction of the Fair Deal highway, they be given protection to men riding on trucks in the event of any legal hold-up.

Increases requested are:

• Increases ranging from 10 to 25 cents a day.

Looking Them Over

By Jack Kelly
Goal Reached
Happy Fans
Elks Are Next!

TODAY Edmonton soccer interests have achieved their second major objective in their drive for a new and better deal for the game here. For the first time in many a long year, the city now has a fair and equal position with Calgary on the executive of the Alberta Football Association as a result of the election of Lt.-Col. T. C. Slim to the presidency, Jack Strachan to the vice-presidency and Tom Fawcett to the council.

It was only a year ago that Edmonton enthusiasts set out to bring soccer back from the grave in Edmonton. The first objective was to get the set-up overhauls right here at home and then attempt to get an equal voice in the control of provincial matters. Both have now been accomplished.

If the same enthusiasm and drive are applied to the Alberta Association as were applied to the Edmonton job there will be throughout Alberta a strong upsurge in the game.

As far as what proposals the new executive will advance to help the game throughout the province have not been disclosed and I doubt if they have been boiled down as yet to concrete suggestions. One thing that is almost certain, however, to be given a lot of thought is ways and means of getting more towns playing the game. Assistance and encouragement to junior, juvenile and midget teams will also come in the council program.

As a matter of record, it should be pointed out that the situation at the annual meeting of the A.F.A. on Saturday was such that Edmonton might have seized control of the association and left Calgary in the position that Edmonton has been functioning in for a long time. Fortunately no members deemed it necessary to take advantage of the opportunity.

It seems that representation on the executive is as well distributed around the province that full co-operation throughout Alberta should be easy to obtain.

★ ★ ★

Twas a Stirring Battle

FLYERS victory over Lethbridge Maple Leafs here on Saturday was another resounding exhibition of senior hockey that sent the fans home perfectly satisfied. It also left no doubt in my mind as to how close the race is between the two clubs in the Alberta Valley for the championship. You can safely forecast right now that it is going to be a blanket finish for these outfitts, with Orla probably in on it too.

The margin that gave Flyers their victory over the Leafs was so small that it will probably be anybody's game whenever these two clubs tangle again.

So far every senior game here this season has packed more action, thrills and solid hockey satisfaction than any I have seen in Edmonton for quite a spell of years. Coach Eddie O'Keefe seems to have injected a fighting spirit into the Flyers that has long been missing around these parts so far as senior hockey is concerned. He's got the boys back-chasing, relentlessly driving with the throttle wide-open all the time. The difference has been taken on a polish that seems to be ringing the bell with the cash patrons.

Stunt turned in his best performance to date on Saturday night, a really sparkling display. Goalie Robbie saved brilliantly a score of times and seemed headed for a shut-out when the terrible Lethbridge pressure in the closing minutes finally smashed through for a well-earned goal. When Bob Crossland had regained all of his old illusiveness, he was trailing faster every time cut.

Stunt, in his opinion, is the masterpiece of the Flyers. They are the first club in the Alberta Senior Hockey League to send every player out on the ice with a helmet on his noggin. It's just another example of the thoroughness with which this club is run. It will probably pay big dividends before the finals are reached. There were a couple of times Saturday night when Flyers crashed head-on into the boards hard enough to do serious damage if they hadn't been wearing helmets.

★ ★ ★

Those Elks Again on Wednesday

ODDS ELKS, Edmonton's most bitter rivals in the current hockey campaign, provide the opposition in the next game here on Wednesday. Coach Frank Coulson has had his Elk drilling here since last week in preparation for it. He is convinced that his club can beat the Flyers again.

Fans who saw the other Flyer-Elk games will need no urging to be on hand for Wednesday's affair. Coach Eddie O'Keefe and his squad are set to shoot the works and take a revenge on the Elkies that Gide will shudder to remember. The feud between these clubs is getting hotter than a blast furnace. Wednesday night is the top assignment on my book for this week.

Saskatoon Quakers Beat Out Yorkton

SASKATOON Quakers, despite their own penalties, put the squeeze on the Yorkton Terriers Saturday night. The Quakers won out by 2-0. The Yorkton Terriers 5-2 before Saturday night.

Saskatoon Quakers outed Yorkton Terriers 5-2 before Saturday night. The Quakers had finally broken with the dominion Victoria Dominics.

The Dominics, after applying for re-admission to the Western and Dominion Leagues from which they had been ejected earlier this season, refused to accept certain conditions laid down by the B.C.B.A. Gordon said the Quakers would continue to play with any club affiliated with the association.

Only four minor penalties were handed out in the cleanly contested game but the Yorkton and Quakers did not shoot the works and take a revenge on the Elkies that Gide will shudder to remember.

Me Neilson, with two, and Max Bennett were the goal-scorers for the Quakers. The Yorkton Terriers Archie Fraser bagged Yorkton's only point, getting Harrison's assist.

McNeilson, with two, and Max Bennett were the goal-scorers for the Quakers. The Yorkton Terriers Archie Fraser bagged Yorkton's only point, getting Harrison's assist.

Timely Tips

For The Family

WHITE FRUIT CAKE
1/2 cups after cake or pastry flour,
1/2 cup butter, 1/2 cup sugar,
1/2 cup butter or other margarine,
1/2 cup granulated sugar, 1 egg white
(unbeaten), 1/2 cup flour, 1/2 cup cherries,
1/2 cup finely cut citrus, 1/2 cup
chopped blanched almonds, 1/2 cup
raisins, 1/2 cup currants, 1/2 cup
peeled sultanas, 1/2 teaspoon
almond extract, 1/2 teaspoon
cinnamon, 1/2 teaspoon nutmeg.
Add baking powder and salt, and sift
together. Mix. Cream butter thoroughly,
then add sugar. Cream together until light and fluffy.
Add eggs, one at a time, creaming
very thoroughly after each. Add fruit,
raisins, sultanas, and blanched almonds
well. Add flour, a small amount at a time, stirring well after each addition.
Smooth back in loaf pan, 8x12x6 inches,
which has been greased. Place heavy paper
over top and again grease. Bake in
slow oven (about 350° F.) 1½ hours,
or until done. Wrap in foil paper
and keep in air-tight container.
